the

RIGHT PLACE

for the

WHITE FACE

HOFFMAN $\frac{1}{5}$ RANCH

Bringing Back Balance

why use

HEREFORD BULLS *on* ANGUS COWS?

**It's the right place for the white face.
There are unlimited advantages to
using Hereford bulls on your straight
black or red cows.**

**DOCILITY • FERTILITY
LONGEVITY**

PRODUCTION EFFICIENCY

**FEED EFFICIENCY IN THE
PASTURE AND FEEDLOT**

FERTILITY Time and time again the black baldy F1 female posts our highest pregnancy rates in our commercial heifer program. American Hereford Association data shows a 7% pregnancy advantage of a black baldy female compared to her straight bred counterpart!! We have always beat this difference.

EFFICIENCY It takes less feed for us to run our black baldy females, and they still provide more output. Dr. Lalman at Oklahoma State University found that black baldy females consumed 2 pounds less feed per day and were a 0.5 body condition score better!! SHE SIMPLY DOES MORE WITH LESS!!

LONGEVITY Often our customers tell us they had to ship their 8-10 year-old Hereford bull because they couldn't use him anymore due to having too many daughters in the herd. Herefords are built to last and structure breeds on, these baldy females will flat last. Plus Herefords continue to receive Industry praise for genetic resistance to PAP and congestive heart failure in the feedlot.

HOFFMAN ¹/₅ RANCH

Bringing Back Balance

THE HOFFMAN IMPACT

Some of the biggest yearling, feedlot, and cow calf producers in the US are Hereford bull customers of ours. These are guys that own their cattle the whole way through harvest. The biggest we deal with have been pleased with the end product performance of our genetics and enjoy the cheaper cost of gains at closeout time.

HOFFMAN GUARANTEE

We like feeding cattle and certainly don't mind standing behind our genetics. In fact, maybe one day cattle will be traded on their genetics and quality opposed to hide color but until then bring us your red hided sort offs. Bring them to either of our sales and we will give you an equal price for what their contemporaries brought in bull credit.

We want your baldy calves!

OPPORTUNITY

This fall we have simply run out of baldy females to find for people. The baldy female is only going to get more expensive as we rebuild the nations cowherd so it's time to start making your own. American Hereford Association data over a 10-year simulation, shows baldy females return \$90 more in net income per year and \$300 more in net worth per year than their straight bred counterparts.

FERTILITY, EFFICIENCY, LONGEVITY *and* PROGRESSIVE GENETICS PAY.

Testimonial

“

When we came to Jason and the Hoffman Ranch, we were looking for Hereford bulls to breed our Angus-based cows. In our operation we do a little of everything. We have two feedlots, a cow/calf herd, and we background and breed heifers. The feedlot is our largest component of the business, and most cattle are harvested on the grid. First and foremost, we were looking for bulls that excelled in carcass traits so calves out of the cow/calf herd would rise to the top in the grid. We also raise our own heifer's so moderate milk and fertility are also important to our operation. Finding multiple bulls year in and year out speaks to the knowledge that Jason has and what the cattle industry needs.

What we found by buying bulls from Hoffman Ranch has far exceeded our expectations. Not only did we find bulls that help our cattle excel on the grid. We have found heifers that have turned into fantastic moderate framed cows, who are good milkers and breed back year in and year out. The calves from these bull's pack pounds on in the feedlot and year after year exceed expectations on the grid.

Outside of filling our void that we were looking for in bulls. Jason has also helped forge relationships with other cattlemen and cattlemen in the industry to help fill our pens with cattle sired by Hoffman genetics that we know will perform.

The Laner Family - Gothenburg, Nebraska

READ MORE RESEARCH on the benefits of HEREFORD HETEROSIS!

HEREFORD-SIRED BLACK BALDY FEMALE ADVANTAGES

- 7% higher pregnancy rate
- More calves weaned per cow exposed
- \$90 more per cow per year in net present value (2023 calculation)
- 3.5% more average rate of return on assets
- 2 pounds less pasture forage per day while maintaining more body condition

Black baldy cows require 1 acre less of moderate-quality forage per year compared to straightbred black Angus peers, according to Oklahoma State University research.

HEREFORD-SIRED BLACK BALDY STEERS ADVANTAGES

- Heavier weaning weights
- Increased feed efficiency
- Lower cost of gain
- Lower feedlot breakeven
- \$28 per head less feed cost across finishing period

Based on feed efficiency alone – breed differences documented by the U.S. Animal Research Center – Hereford has a \$51 per head advantage over the finishing period, when compared to Angus.

Harris Heterosis Report

Welcome

Fellow Beef Producers, Friends and Customers,

It's with great enthusiasm we bring you the strongest offering of bulls we have ever offered. We try to make it known that we focus on "balance". Chasing fads and some EPD's is a slippery slope. We want cattle that combine economic importance starting with structural quality, efficiency, huge maternal traits, and most importantly... fertility! All numbers and EPD's past that are gravy. However, we do set parameters on both breeds where we feel there is need for improvement.

We send bulls throughout to some extremely tough regions of the U.S. and feel that's where they really shine. Our advantage has always been structural soundness, and eye appeal. We believe in the structure and longevity of our bulls so much that we have started A 3 YEAR FOOT GUARANTEE!! All bulls should easily be able to handle this, or we don't expect you to be satisfied. We still cover the first breeding season as well.

This fall we have seen some wild markets and opportunities for many outfits to heal up some from the past few years. Even at times like this, one thing remains the same... There is definite separation for better genetics! We demand the best and don't expect our customers to settle for any less.

As stated before, Stellpflug Cattle Co. has a big offering in this sale. Andy Stellpflug has made a huge impact in our program as well as both the Hereford and Angus breeds. A lot of these bulls are born right here in the Sandhills. Some people don't have any cooperators and that's commendable. However, this offering of 375 bulls is the very top selection of over 600 bulls, to get to this point there is serious quality control! We want to bring the very best to our bull sales. The bulls are developed for longevity and expected to survive. We work just as hard on our cow herd to ensure that every bull sold has a mother that we would be proud to show you.

It sure feels like the best things are yet to come and we hope that ranching families across our nation can bring that next generation back! No matter the hardships. Knowing our Lord and living in Rural America provides us with the highest quality of life one can hope for.

My Best, Jason Hoffman

1 1/5 **CUSTOMER SERVICE** *is our brand*

WE GO THE EXTRA MILE

Free delivery to any state in the continental United States on all bulls is something we proudly offer. Occasionally, a buyer may need to meet a trailer at a central spot, but we will do our best to get them directly to you.

WE APPRECIATE YOUR BUSINESS

We value our volume buyers and gladly offer discounts on multiple bulls purchased. Volume discounts offered at a 5% discount for 5-9 head and a 10% discount for 10+ head. Call Hoffman's for details.

WE GUARANTEE SATISFACTION

Bids can be called in to Jason (530-604-5096), Denny (406-425-0859) before the sale. We guarantee satisfaction on all orders.

WE BELIEVE IN OUR PROGRAM

Bulls are guaranteed to be 100% sound and healthy breeders with an unconditional first breeding season guarantee.

WE ASSIST YOU IN THE MARKETING OF YOUR CALVES

Every year, we place large groups of replacement heifers throughout the U.S. We also stay in direct contact with feed yards that are interested in and familiar with our genetics.

We assist in marketing several thousand feeder cattle and replacement heifers throughout the year for our customers... all you have to do is let us know.

we appreciate your support!

This sire group that leads our Hereford division is absolutely the most uniform cattle you can find. They are built wide from the ground up, they have ideal structure with width of base. They are extremely efficient, soggy made bulls that are big topped, thick ended, and huge testicled. We will calve his first daughters this spring. They look like they'll have ideal udders with perfect teat placement. Owned with Stellflug Cattle Co.

This bull is perfect for the times. He's a moderate birth weight bull whose progeny keep up as they grow. Most every On Demand in this sale was raised on a first calf heifer. Their color pattern is perfect with added pigment and even some freckles! They have real muscle over their top and throughout their hip and have a structure that will last forever. His dam is probably Denny's favorite animal on the entire place. Owned with Genex.

HOFFMAN ¹/₅ RANCH

Bringing Back Balance

2025 ROPING SCHOOLS

June 23 & 24, 2025

June 26 & 27, 2025

Hoffman Ranch will be hosting two different roping schools taught by Dustin Davis and Billie Jack Saebens. If you or your organization purchase bull(s) in the 2024 fall bull sale or the 2025 spring bull sale, you will have a spot reserved. The cost of the clinic is \$500 per person for customers and \$700 per person for non-customers.

You are welcome to send anyone affiliated with your organization who wants to improve their roping skills. This event is for customers and our crew first. If the two-day schools are not filled by May 15th, we will open it to the public for \$700.

Billie Jack Saebens

This is an outside bull that we used and we are awfully glad we did. His sons are real beef bulls. They are stout, thick ended, and efficient. This bull really carries through a tremendous amount of marbling and boosts several EPD's throughout. We think he's an excellent tool to move the breed forward. Bulls like this are unique because you don't sacrifice eye appeal or quality to get added marbling. His mother is one of the most famous cows in the breed at this time. Owned by Churchill Cattle Co. and Birdwell.

The line one bull we have been waiting for. This bull adds extra substance, density and quality. Structure looks to be ideal and one thing I definitely noticed when sorting bulls is they have extra scrotal circumference. This is a nice shot of carcass value, and udder quality to go along with this horned pedigree. Owned with Cooper Herefords, Stellpflug Cattle Co, and Churchill Cattle Co.

Lot 56

Arlo is a goggle eyed true power bull with added bone and foot size. These cattle have real muscle in them and are going to add pounds, performance and eye appeal. For as heavy muscled as they are, they still have plenty of rib and substance to them. Owned with Colyer Herefords and Buck Cattle Co.

This low birth weight calving ease sire group is really unique, as you don't sacrifice quality for advantage in birth weight and carcass traits. We are very happy with this sire group and find them to be some of the most unique spread bulls throughout the breed. Owned by Knoll Crest Farms and Four B Farms.

This is a proven bull that we went back and got semen on, due to his carcass, quality, markings, and scrotal size. His daughters are doing a good job throughout the breed and these sons are wide bodied, thick ended, and correct on their feet and legs. They should last for the long haul. Owned by Barber Ranch, Colyer Herefords, Bill King, and Rylee Matheny.

We bought a piece of this Belle Air son and possession mostly because he was a high marbling, low birth weight son of the famed 5139 cow who we sold for \$175,000 to Sierra Ranches. They are moderate framed, thick topped cattle that are extremely efficient. The daughters have ideal udders. This bull is just a no holes bull. You'll see his influence in our program for years to come. Owned with Brumley Farms, Shaw Cattle Co, and Sierra Ranches.

Our all time record selling bull through our sale. He sold for \$300,000 to Select Sires and ST Genetics. He's been used by some of the really good programs in the Angus breed and it feels like he'll continue to see heavy use. He sires progeny who are ideal in their pattern and structure, excellent foot quality, hock placement, and movement. I think he is really right for the times. With the maternal figures he has, the eye appeal he transmits is unbeatable and his females are beautiful to look at. He was a slam dunk heifer bull here and his calves were low birth weight and extremely vigorous. Owned by Select Sires and ST Genetics.

Can be used on heifers and cows. This bull has been a standout since he was born. He's double bred 3839 and has it all; look, phenotype, depth of body. He's a level deigned bull that's really good on the move and has the presence of a herd bull. He is out of an exceptionally good hard working first calf heifer that gave everything she had to produce this high caliber herd bull. He's also big testicled. One of the all time highlights we've raised in either breed. Top 1% \$W, Top 2% \$M, Top 3% Angle, Top 4% CED, Top 5% WW, Top 10% Claw, Top 10% HPreg, Top 20% MH, Top 20% YH, Top 20% YW

Thedford did everything that he was needed to do with a lot of added bonuses. As a sire group, these cattle are extremely gentle and are high performance cattle that come light at birth. He's a unique combination of scrotal circumference and maternal traits. We love the daughters we've calved out of him. They make excellent mothers and are extremely fertile. Thedford sons topped many of the leading sales throughout the Angus breed last spring. Owned by ST Genetics.

This bull is a three quarter brother to a bull that we own with Hilltop Angus in Montana called "Hoffman The Program". Look at the power bulls on the bottom side of this pedigree. He has high maternal figures with added volume, look, and shape. He is also very typey in his kind. I've always felt our strong point is phenotype and this bull will show you why. Top 3% SC, Top 5% Angle, Top 10% Milk, Top 15% \$W, Top 15% Fat, Top 15% HPreg, Top 20% \$F

Bar None is a consistent sire that is as good of son as 3839 has produced to date. His progeny at Hilltop Angus were a highlight of last fall's Montana Angus tour. The bull himself has been extremely popular as he is a standout for phenotype, volume, and thickness. A Bar None son topped our fall of 2024 Sale. Owned with Hilltop Angus in Montana and GENEX.

We were the runner up bidder on North Star and probably should have pursued him harder. He's a true calving ease bull but offers so much more on the other end. These cattle have real muscle shape and I think he's a good bull to use as we feel the Angus breed could use a real shot of muscle back in their cattle. He'll make a first calf heifer look good. His granddam was purchased by Stellpflug Cattle Co and that's a good testament for the cow power behind this bull. Owned by GENEX, Bear Mtn Angus Ranches, and Linz Heritage Angus.

This has been a really good calving ease bull for Stellpflug Cattle Co with a lot of strength and numbers in the right place. Some of these sons are real studs and we thought enough of him to flush some of Andy's better cows to him. Owned by Stellpflug Cattle Co.

THOMAS PATRICIA 9705

We really should not be selling this horse because he fits everybody around the ranch. He's been hauled to several world series team ropings, have won money on him as well as fast times. He's been ranched on by the kids, he's a go to horse for brandings or anything around the ranch. Nothing will rattle him. He's a big stout horse and one of the best head horses we've had. Call Jason with any questions.

This is a great mating of two really good dogs that we feel out produce themselves. This mating gets more aggressive as they mature. They have great minds, fast learners, and great work ethic with natural ability. The pups have a lot of drive, respect, and great personalities. Charlie is extremely curious and quiet. This pup is offered by the Hoffman Kids.

Parents - Boone and Honey

Justin Janda Full Sibling to Puppy Selling

"My pup has a lot of drive with a lot of eye for cattle. With enough bite to turn them around combined with enough sense to pressure and release. A dog that can go out in the big hills or the feedlot. A people's dog that wants to please."

- Seth Grunhaupt

"Roscoe is an asset around the ranch. He is as strong and confident as any pup we have had and is very responsive to commands. He is also very loyal, which is important in the training process. We look forward to working him on our operation for a long time."

- Anton Hermes

"Annie has a tremendous amount of presence, confidence, and intelligence. She is super trainable and has the eye appeal to top it off. She's a very impressive pup."

- Justin Janda
